The Merck/Merial Manual for Pet Health (The Complete Pet Health Resource for Your Dog, Cat, Horse, or Other Pets ---- in Everyday Language)

The first signs that your cat may have lice are scratching, biting, and rubbing of infested areas. If the lice are abundant, the hair might also be matted or missing. The cat may also appear restless. Usually, diagnosis is made by seeing lice or, more likely, their eggs on the infested cat. Parting the hair often reveals the lice or eggs.

PRODUCT MANUALS. Below you will find links to the operation manuals, installation guides and general reference material that we have available. We offer manuals in English for all models and in French for some

models. Additional languages are not available through this website nor facility.

Jul 16, 2021 · 2. Comb your cat's fur. Comb the cat from head to tail with a flea comb and examine the fur and exposed skin as you work. Pay particular attention to the back of the neck, the base of the tail and the insides of the legs. These are favorite hiding spots of fleas.
