The GRE Math Subject Test is a separate exam, not part of the General GRE. Those who want to take the Math Subject Test sign up for it specifically. While the Quantitative Section of the General GRE tests mathematical aptitude, the GRE Math Subject Test looks for knowledge learned as part of an undergraduate education in mathematics.

The GRE Subject Test in Math consists of 66 questions. Half of the test's questions are calculus-related, and one-quarter will require the use of algebra. The remaining questions are divided among a variety of undergraduate-level math topics, including geometry, introductory real analysis, probability and statistics, and discrete mathematics.
