Dec 26, 2016 · 2. May 19, 2016. #1. I am currently starting my rendition of Steve Hucks demon v8 engine. For those of you that aren't familiar, Steve built a 1/5 scale v8 engine that runs on gasoline. All parts must

be hand created, even the spark plugs. He has done an excellent job at documenting his work and has made plans available for purchase.

Apr 03, 2017 · Re: Model
V8 engine plans required.
Just to let everybody know,
the rights to the plans for the
demon V8 now belong to
Executive Model Design.
They purchased the rights to

sell plans to those who wish to build one but to also look into producing mechanics kits for those who would like to purchase the parts and assemble it themselves.

Steve's Miniature
Sparkplugs is a very small
business dedicated to
building quality sparkplugs
for the model engineering
community. All our plugs
are hand made in small
batches. Every sparkplug is
made using steel bases,
Corian for the insulator, and

brass for the cap. These materials are widely used by model engineers for the making of sparkplugs.
