Oct 04, 2015 · Better to take it to a Motorola dealer and have them do it for 20-30 bucks. The up and down arrows select the channel (up to 32 channel slots) and the 4 buttons on the

lower front are programmable for a list of various functions. Google CM300 and there is a users manual you can download. I worked on

radios like this before I retired in 2012.

Page. I was given an old Motorola Radius

CM300. Really, it's not that old by my standards. The specs for the model I was given list the frequency range as 146-174Mhz. However, many of the VHF repeaters I would

like to contact are down in the 145Mhz range,  
including the repeater closest to me.

Yep more radios on their way back to

commercial service.
