Jun 06, 2017 · The ability to change focus settings in the camera menu rather than the switches on the lens barrel offers photographers a more intuitive way to shoot. Some cameras released before the introduction of AF-P lenses require a firmware update to make lens control possible from the camera menu as listed below.

Understanding the AF-P Lenses. With the introduction of the AF-P lenses, Nikon caused a big issue: compatibility. First, the lenses to which the following applies: 18-55mm f/3.5-5.6G DX (both VR and non VR models) 70-300mm f/4.5-6.3G ED DX (both VR and non VR models) So let's clear the compatibility up. Fully Compatible — D5, D6, D500, D780 ...

Using a teleconverter is an affordable option when you want to increase your photographic reach without having to purchase new super-telephoto lenses. Nikon currently offers teleconverters in 1.4x, 1.7x and 2x magnifications. These AF-S teleconverters utilize the Nikon f/mount, and are compatible with all Nikon film-based SLRs and DSLRs (FX and ...

All Soviet lenses don't have auto focus and are manual focus lenses, these lenses are often called 'manual' from the English. Manual Focul Lens - manual focus lens, or simply, 'manual lens', 'manual', MF.. All old lenses can be divided into several types depending on the thread of the lens to the camera. Whether you can attach a Soviet lens to a Nikon system directly depends on the thread (rear ...

Sigma lists the lens to be compatible with the D5600. However, the entire list is prefaced with a disclaimer that "It is not guaranteed for all function and performance." Sigma may or may not eventually issue a firmware update for your particular lens to make it compatible with newer Nikon bodies. Historically it's a bit hit or miss.

Nikon D600/D800 support for manual lenses with adapter. I am considering buying a Nikon D600 or a D800. I have some old manual lenses, most of them have Pentacox Six a.k.a. Kiev 60 mounts.
